

*Make me an instrument of peace at work*

*Where there are indifference or hatred,  
let me sow compassion and love.*

*Where there are fraud, waste, and abuse,  
let me sow accountability and help restore justice.*

*Where there are stress and burnout,  
help me sow purpose and divine calm.*

*Where there are darkness and confusion,  
help me find wisdom and clear sight.  
Where there is sadness, help me promote healing and joy.*

*May all my tasks be done in harmony with all Creation.*

*May I always work in balance,  
true to myself and my purpose, on the level with others,  
giving to others, loving others,  
as I give to and love myself.*

*May my workplace be sacred space, where love and compassion  
ripple out from each small act that I do,  
right here, right now, and always.*
